OF THE WORLD®

HÔTEL CHAIS MONNET

The heart of Cognac, a town rich in history and heritage, welcomes a newly renovated high-end institution. Located a stone's throw from Cognac's most beautiful homes, the 2-hectare Hôtel Chais Monnet offers 92 rooms and suites, 13 apartments, 2 restaurants, and a contemporary spa within ancestral cellars built in 1838.

Created in 1838 on over 2 hectares in the town centre, they have since become a rich part of our history. Our architect, Didier Poignant, has worked on transforming this remarkable site and legacy of our wine trading history into a haven of tranquillity and elegance.

Cultivating French art de vivre, Hôtel Chais Monnet strives to offer a space of excellence at all times combining our rich heritage with modernity. Located near Cognac's most beautiful homes in the historic heart of our ancestral town, our establishment is built on the premise of providing you with future memories of the most special times of your life.

Hôtel Chais Monnet includes 92 rooms, a gastronomic restaurant run by our chef Sébastien Broda, a brasserie with 120 seats, and a jazz bar. Our offer also includes a tea room for the pleasure of those with great taste.

A wellness space including a spa, fitness room, jacuzzi, steam room, and sauna, will delight travellers seeking relaxation and peace. Finally, Hôtel Chais Monnet offers 4 seminar rooms and a 400 sq m ballroom for private and business events.
